

CamMUN 2026 student reflections

Nicole Lapis (Lower Sixth) "CamMUN 2026 was a fantastic experience. I truly enjoyed every moment, but the social event and the chance to connect with new international friends were the clear highlights! The debates in UNICEF were some of the most engaging I've experienced. I had a great back-and-forth with the delegate of the UK, Lara from the Lower Sixth; she remained incredibly composed throughout and well-deserved the Best Delegate award. I am very pleased to have received an Honourable Mention myself. This was easily my favourite conference to date, and UNICEF was the best committee I have ever been a part of. I am already looking forward to returning next year."

Seren Morgan (Lower Sixth) "Attending CamMUN 2026 was a memorable event, I met many students from around the world, such as Greece and Turkey. It was an amazing experience to be able to attend CamMUN again this year. I was able to engage in complex debates surrounding AI in the field of scientific research and microchip availability. I am thankful to have been able to attend this event and social which has allowed me to make new friends and connections."

Nora Nihad (Year 11) "I am so glad to be able to attend CamMUN this year. This was my first time attending a conference, so I was really nervous, however MUN greatly encouraged me to speak out about our issues and ally with delegates from other countries to be able to form resolutions. I also

made a few friends, and we bonded over Indian culture. Maybe next time I would like to be on the crisis committee so I can take over the country!"

Anwesha Singh (Year 11) "CamMUN 2026 was a valuable experiment to meet a range of people from around the world like from Turkey, Greece and Belgium. I really enjoyed meeting people from the society which was by far my favourite part and holding these connections throughout the rest of the conference. I hope to be able to do it again next year. My committee was amazing with even the delegate of China seeming to take a liking to my position paper and made a copied file of it. Overall, my time in the UNODC was an incredibly enjoyable three days with fruitful discussions over agrarian alternatives for illicit drug farmers and trying to find resolutions to solve the problem of cultural trafficking."

Sophie Abdin (Year 11) "I had such a brilliant time at CAMMUN 2026 representing the UK in UNODC. Beyond the intense debates on global crime, the best part was definitely the socials and the chance to click with people from all over the world. I'm coming away with some amazing international connections and memories that made the whole experience feel like way more than just a conference."

Alisha Anand (Year 11) "CamMUN was the first conference I had properly prepared for. I found it extremely eye opening and engaging learning a great deal about debating on political matters. It was amazing to connect with international schools and learn about their countries. It was amazing to meet people, with similar aspirations and interests. Overall, I had a lot of fun engaging in debates, and of course reading the gossip box!

Kara Farquhar (Lower Sixth) "Attending my first official conference for MUN in Cambridge was such a great experience full of loads of fun memories. I loved learning debating skills and how to work with new people I met at the conference. Such a good experience!"

Erin Ferris (Lower Sixth) "As my first official MUN conference, CamMUN was amazing and exceeded my expectations. Being a part of a rather unusual committee, it was great to debate the future of Nazi Germany, and I've been able to walk away with some great new international friends!"

Haiya Saleem (Year 11) "I thought the conference was amazing! The debate was heated but I met so many people from different countries with diverse viewpoints when representing their country. We talked and agreed to disagree making resolutions together with great teamwork. It was my second conference and my biggest one yet. It was a great opportunity to socialise and to debate serious world topics with bits of fun!"
